

HOLLY BAY CAMPGROUND PROGRAMS

JUNE 2012

Appalachian Music with Lewis and Donna Lamb

Get ready to tap your feet as Lewis and Donna Lamb perform traditional Appalachian music. This remarkable father-daughter duo have been making, preserving, teaching and sharing traditional Appalachian music for years. J. R. Parrott will join the Lambs on banjo.

8:00 PM at the Campfire Circle
Saturday, June 2

“Grandma Played an Autoharp”

Humorist & naturalist John Tierney retells stories he learned from his grandmother, and plays songs not heard recently. Come to the Campfire Circle to hear stories and songs from bygone days – you may want to sing along!

8:00 PM at the Campfire Circle
Saturday, June 9

Fish of Laurel Lake

John Williams, Wildlife Biologist with the Kentucky Fish & Wildlife Department, will inform and enlighten us on the many species of fish in Laurel Lake, and how the state of Kentucky manages the fishery in the lake.

8:30 PM at the Campfire Circle
Saturday, June 16

Black Bears & You

John Omer, Wildlife Biologist for the London Ranger District, will inform us about Black Bears in the Laurel Lake area. Learn about measures you should take when camping or at home to prevent bears from becoming problems.

8:30 PM at the Campfire Circle
Saturday, June 23

Raptor Recovery

Members of the Conservation Club from Southwestern High School in Somerset KY will exhibit live raptors, or birds of prey, that have been injured and could not survive on their own. The Raptor Recovery program accepts injured raptors and nurses them until they can be released back to their native habitat.

7:30 PM at the Campfire Circle
Saturday, June 30

HOLLY BAY CAMPGROUND PROGRAMS

JULY 2012

Invasion of the Species!

David Taylor, Botanist for the US Forest Service, will be here to show and tell us about plants that are invading Kentucky, including the Daniel Boone National Forest! Come to the Campfire Circle Theater to learn more, and see how this invasion affects you.

8:00 PM at the Campfire Circle
Saturday, July 7

Amphibians and Reptiles across Kentucky

John MacGregor, Herpetologist with the KY Department of Fish and Wildlife Resources, is one of the leading experts on amphibians and reptiles across the state. Come hear why these animals are so important, and see some excellent wildlife photography!

8:30 PM at the Campfire Circle
Saturday, July 14

Recovery of Lake Sturgeon in Lake Cumberland

John Williams, Wildlife Biologist with the Kentucky Fish & Wildlife Department, will present information on the reintroduction of Lake Sturgeon in Lake Cumberland. They were last seen in 1954. Learn about habitat and the reintroduction project.

8:30 PM at the Campfire Circle
Saturday, July 21

Appalachian Music with Lewis and Donna Lamb

Get ready to tap your feet as Lewis and Donna Lamb perform traditional Appalachian music. This remarkable father-daughter duo have been making, preserving, teaching and sharing traditional Appalachian music for years. J. R. Parrott will join the Lambs on banjo.

8:00 PM at the Campfire Circle
Saturday, July 28

HOLLY BAY CAMPGROUND PROGRAMS

AUGUST 2012

Kentucky Before Boone

Long before Daniel Boone set foot in these parts, Native Americans were here. Mary White, Archaeologist with the US Forest Service, will tell us how we can learn about their lives, and why Kentucky's earliest people are important to us now.

8:30 PM at the Campfire Circle
Saturday, August 4

Wildfire!

US Forest Service Fire Fighters will show how you can defend your home from wildfires. Learn the measures you should take to keep a protective barrier around your house before a wildfire threatens it. They will also show you the equipment that they use to combat forest fires.

8:30 PM at the Campfire Circle
Saturday, August 11

Raptor Recovery

Members of the Conservation Club from Southwestern High School in Somerset KY will exhibit live raptors, or birds of prey, that have been injured and could not survive on their own. The Raptor Recovery program accepts injured raptors and nurses them until they can be released back to their native habitat.

7:30 PM at the Campfire Circle
Saturday, August 18

Bats of Kentucky

KDFWR Bat Ecologist Brooke Hines will explain the benefits and dispel myths about bat species that live in KY. We'll also learn the latest about White Nose Syndrome, a growing threat to bats. Come to the Campfire Circle theater to learn about these fascinating creatures!

8:30 PM at the Campfire Circle
Saturday, August 25
